# Transcriptomics Practical
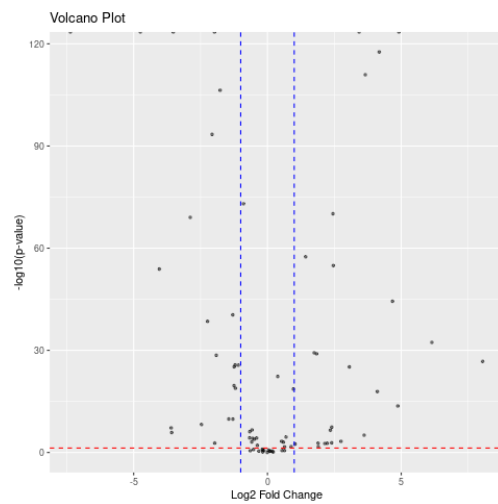

Juozapas

April 15, 2024

5. MultiQC reports can be found as a separate files. The successful removal of adapters can be seen in the Adapter Content section.

7. Collibri method uses strand 1 while KAPA uses strand 2.

11. Shrunken, because the dataset is very small in our case.

(a) collibri
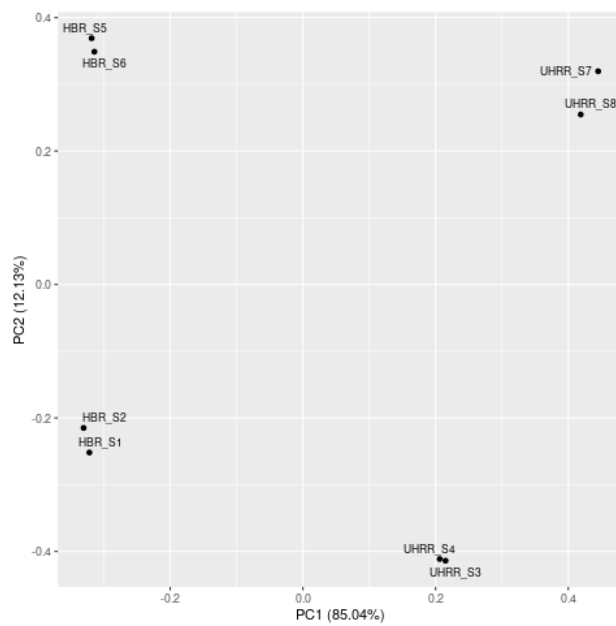

(b) KAPA
